Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

IQAC prepares academic calendar of the year. Time table committee designs Time Table for all programmes as per university norms. It is displayed on notice board and College Website. We have self-designed Certificate Courses focusing on employability, enrichment and entrepreneurship development. Teachers are informed about their tentative workload and courses for next academic year. This helps them to prepare teaching plan. Teachers prepare the teaching plan for each semester. Higher authorities monitor the same. Teachers are expected to execute their course deliverables as mentioned in Teaching plan. Teachers refer standard reference books prescribed by University along with latest information available through online and other resources for effective implementation of curriculum. Besides the use of conventional method, various other teaching methods like Quiz, Group Discussion, Demonstrations, PPT Presentations, Allied Projects, Games, Short Films, Industrial Visits, Add-on practical's, Open book tests, Assignments, Videos, Use of charts and graphs are used for effective curriculum implementation. Based on semester wise result analysis of every course corrective measures are suggested by IQAC and remedial lectures are conducted if required

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

We have offline paperless feedback mechanism. This mechanism is divided into two categories viz. students' feedback and teachers' feedback. Student feedback is based on two criterions: overall college functioning and teaching learning process. Feedback on overall functioning of the college: it is based on the learning environment of the college, college timing, functioning of career guidance cell, library facility, sports facility, cultural competition, safety and security measures in college, etc. Teachers Feedback (Teaching and Learning Process) – This feedback covers teaching learning process, punctuality, communication skills, approach towards the students, sharing of innovative ideas, ability to generate interest in the subject, accessibility of teacher in and out of the class, overall performance etc. We have emphasized on teacher's innovativeness, use of ICT in teaching methodologies interactive teaching and

students' involvement in learning. We collect individual teacher's feedback and analyze it. The analysis is reported to the head of the institution, IQAC, management members for corrective measures and it is communicated to the individual teacher for further improvement. Teacher's feedback is taken on their views about the curriculum provided by our affiliated University. Teachers provide their suggestions while attending the syllabi revision workshop.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Yes. The college has practiced a Mentor system. Students of each class in the college are having a full-time teacher as their mentor. The College has been assigned more than one mentor for each class where there are large numbers of students. For the mentoring of students, students are categorized based on their class. They are divided into groups of 25-30 depending on the number of students. Each group is assigned a teacher-mentor who would perform mentoring duties. A Mentoring Format with Guidelines is prepared by the IQAC to ensure

uniformity. Our maximum Mentor-Mentee ratio in this year is 1 : 41. It is flexible depending upon the total number of students in the class and number of the teaching faculty. At the beginning of the academic session, the class-wise names of the mentors and mentee (students) are displayed on the college notice board. The mentors conduct orientation program for the mentees, whereby they are familiar with the institution, its goals and mission, the facilities available and the regulations of the University of Mumbai. Mentors meet their students and guide them for their studies and extra-curricular activities. They also provide advice relating to selection of major, career guidance and personal problems. The mentors maintain details of each individual mentee including record of their class attendance, class-performance and academic progress. The mentors use both formal and informal means of mentoring.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best practice 1 1. Title of the practice: waste disposal and management in rural area 2. Goals: ? Spread awareness about the waste disposal and management in students and nearby villages. ? To reduce environmental pollution and to make rural areas clean. ? To convert bio waste into organic manure which is nutrient source of agricultural and horticultural crops ? To generate employment for rural poor by offering new opportunities in waste management by adopting cost effective and environmentally sound solid waste treatment technologies. 3. The Context : ? Through the awareness campaign of waste management practice in the village Deoli and Nagao, Common dustbins are set up with the help of villagers for a group of 10 households. ? Animal waste compost beds are set up through proper training by agriculture officer and experts. ? Soak pits are set up in commonly and individually. ? Training sessions are helping the students and villagers to sale the compost in organic market and online market. ? The awareness about the use of landfill method is increasing for untreated waste. ? The products form organic farming are now getting high demand in market. ? This practice is a culmination of awareness to systemized and scientific waste management. Training, awareness campaigning, counselling and regular touch with villagers are key pillars which will take us to the objective of zero waste. 4. The Practice : ? The committee is formed including teachers and students for the awareness campaigning. ? Visit is arranged every month which includes training to villagers and farmers for setting of soak pit, vermicompost, segregation of household waste, recycling of paper and plastic ? Meetings are arranged with members of Gram panchayat and social workers in village to set up necessary infrastructure and facilities for disposal of waste. ? Waste collection vehicles and dustbins are arranged in this village with the help of Gram panchayat. ? Dustbins are kept in college laboratories, library, classrooms etc. ? Door to door awareness as well as schools and self help group awareness session are arranged within a year. 5.Evidence of success: ? Through the waste disposal and management practice, institute has developed a systematic model of Waste management. due to which the awareness on waste has been created along the college students and residence of two villages of Goregaon gram Panchayat i.e. Deoli and Nagao ? Around 11 dumpsites are completely cleared after the awareness campaigning and actual field work for waste management ? Conducted awareness sessions encouraged students, citizens and panchayat members for not to use any kind of disposable ? Continuous community involvement through this practice to involve and sensitize villagers on waste problem and to make them aware about the health and pollution is bringing a great success. ? There was no waste collection system in these villages. Now villages are property separating dry and wet waste. ? Farmers in these villages are now using the animal excreta, kitchen waste, animal waste especially cow dung for vermicompost. ? The approach of farmers and villagers toward the waste is changing now. Their view is now commercial. ? Farmers are now giving preference to organic farming, use of compost and getting good income. ? Villagers are using soak pit for waste water. ? People are utilising landfill method for untreated / unmanaged waste. 6.Problems encountered and resources required : ? In the selected practice area i.e. Deoli and Nagao, dustbins and specific area for waste storing is almost absent. Villagers are totally unaware about the waste management. They are unknown about the waste as a major source of income. ? Improper utilisation of organic waste. ? Farmers do not have any commercial view towards the animal waste and cow dung. ? lack of higher authority supervision and community support is a major obstacle. ? Among animals dog is the most severe one to spread the waste materials to its

surrounding. ? Lack of awareness about health problems and diseases occurring due to waste. Best Practice II 1) Title of the Practice : Digital Literacy among rural society 2) Goals : • To Connect rural society with global world through internet network. • To provide knowledge and training to handle digital devices. • To spread awareness in rural citizens about various government services available electronically. • To feel up the gap between educationally and electronically deprived and the prosperous in society . • To create commercial approach in farmers towards agriculture through digital literacy.

3.The context : • Through the digital literacy awareness campaign rural citizens are getting confidence of handling electronic and digital devices such as computer, tablet, smart phone etc. • Due to digital literacy training session rural citizens are getting various benefits like saving time and money of travelling for getting services available far from their residence. • Digital literacy is giving platform to rural youth, women by providing various employment opportunities and business scheme. • The knowledge of handling digital devices like smart phone, rural community is now using various apps and trying to increase their standard of living. • Farmer in rural area are getting knowledge about advance techniques of agriculture and farming which will be helpful for them to increase their income level in future 4.Practice: • For digital literacy in rural society, institute has formed one committee of 04 teachers and 15 students who have good digital knowledge • Training and awareness sessions are arranged in Wadghar and lonshi in Goregaon. • Lectures and presentations of bank officers, computer experts are arranged in the year. • The committee of digital literacy campaign visited this two villages almost in every month of the year to help the villagers. 5. Evidence of success : • The 80 community was totally unaware about the tremendous knowledge, services and information of all sectors available on internet. 60-70 community is using various apps for banking transactions, subsidies, business schemes, government certificate after getting the training of handling the digital devices. • Villagers are now using internet for online booking like railway and bus tickets, • It is now possible for people to sale their products online. Some farmers are getting good income through selling of compost and manures online. • Farmers in this areas are now purchasing online seeds and also getting various ideas of farming like Sandalwood farming, Gerbera flower plantation etc, • Farmers are selling products online like mangoes, cashew, watermelon and some variety of vegetables with the help of committee members of our digital literacy campaign. • Villages and students in this area is now easily getting their Aadhar card, PAN card, driving licence, voting card, ration card and services of LPG gas service, postal service, courier service, online admission applications and examinations. 6. Problems encountered and resources required: • Rural people are very much sticky with their traditional ways of transaction • Much more fear in the mind of people particularly in case of online banking. • It is very difficult to manage the time of farmers for training. • Woman are not ready to attend the training sessions as they are depended on husband and other family members. • Network problem is a major issue in such remote areas. Due to this problem people are giving preference to traditional ways of transaction.
